Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 25, 29 and 32 are rejected under 35 U.S.C. 102(e) as being anticipated by Bekritsky et al (Bekritsky), U.S. Patent No. 7,030,812.

Regarding claims 25, 29 and 32, Bekritsky discloses a method/apparatus comprising: receiving transmit timestamps from a set of wireless stations of a wireless network, each station transmitting at least once, each transmit timestamp using a local timestamping clock to indicate when the stations transmitted a packet; receiving sets of timestamped captured samples from each station that receives one of the transmitted packets, each set of timestamped captured samples being of a signal received at the respective station; from the received sets of timestamped captured samples, determining the times of arrival of each packet at each station; and from the determined times of arrival and the received transmit timestamps, determining the relative positions of the stations (col. 3, line 7-col. 4, line 6).

***Allowable Subject Matter***

3. Claims 1-24 and 35-41 are allowed.
4. Claims 26-28, 30, 31, 33 and 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: Prior art fails to suggest or render obvious a method of locating a wireless station as described.

***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Temica M. Beamer whose telephone number is (571) 272-7797. The examiner can normally be reached on Monday-Thursday (alternate Fridays) 7:30am-4:00pm.
